

CUSTOM DUST CONTROL

The RM of Livingston No. 331 is offering custom dust control for the 2026 season as follows:

Our contractor applies 4 Meter, 6 Meter, and 9 Meter passes and recommends Edge to Edge coverage. ****The width is based on the Road Width, not the option of the customer.****

Contractor will do 2 passes (6 meter and 4 meter) if Edge to Edge coverage requested on wider roads.

Customers have options as to the thickness of the calcium applied. Below are the guidelines:

Guidelines		Cost per Litre
1.5 L per meter Application	Lightest Application – use on secondary roads (not traveled on much) (2x per year recommended May and August)	\$0.43
2.0 L per meter Application	Recommended for Primary Roads	\$0.43
2.5 L per meter Application		\$0.43
3.0 L per meter Application	Heaviest Application	\$0.43

A contract of understanding must be signed before product is applied.

A Deposit of \$300.00 must be made in advance and received at the municipal office no later than 4:00pm May 15, 2026.

Application is tentatively May 25 – May 29, 2026.

For further information call the RM of Livingston at 306 595-4521.

Dust Control Contract of Understanding

I, _____ have read and understand the guidelines and rules of the Municipal Dust Control Program.

1. Dust Control Sites shall be graded and cared for as the road is a municipal asset. The staff will try the best to only grade the site when it is wet with heavy dew or rain, but this is not always an option and occasional dry grading is required.
2. Dust Suppressant is applied under Municipal guidelines and the product is approved by Council of the Rural Municipality of Livingston No. 331. No other suppressant shall be used or applied over the site.
3. The dust control signs are to be used only for Dust control and will be put out 4 days prior to delivery and removed immediately after application. The keeping of the flags for reuse is the property owners' responsibility.
4. The measuring of the site is the property owners' responsibility. A deposit of \$300.00 is required and the remainder of the cost will be invoiced after the product is applied.
5. If the site is gravelled over the Municipality will do it's best to reclaim the site, if that is not possible the property owner will be reimbursed the cost of the dust control for the year, this reimbursement shall be sent once all gravelling is completed for the year.

Calcium Thickness	Choose One
1.5 L per meter – Lightest Application (Secondary Roads)	
2.0 L per meter – Primary Roads (recommended)	
2.5 L per meter	
3.0 L per meter – Heaviest Application	

I the undersigned have read and understand the terms of the Dust Control Program.

Estimated **Meters** of Product: _____

Legal Land Location of Application: _____

I request Edge to Edge coverage: _____ YES or _____ NO **(check one)
